

We love listening to XM! It provides a variety and more music and information than our FM stations do. We, along with the millions of other subscribers, PAY for this service and feel that it is NOT up to the NAB to dictate what we can and cannot receive. If we want to receive local information, then we feel that we should be able to. There are already enough restrictions set upon us by our government officials and if this is something that we are paying for, then we feel that we should have the right to listen to whatever we choose. Please reject the NAB's petition 04-160 and let us listen to what we choose to pay for because if they don't like it, then they don't have to listen! Thank you.
